Guidelines for Poster presentation.

Poster Presentations allow presenters to showcase their contribution in a professional Poster.

Abstracts accepted as Posters for IACCP 2023 will be grouped together by thematic stream, and displayed during dedicated sessions. The authors of the accepted abstracts for poster presentations should submit their poster in an electronic format ahead of the start of the conference.

*Printing the poster in Limerick is possible, therefore, the organizing committee will be in touch with all delegates who want to avail of this!

During the Conference, posters will be displayed during specially dedicated sessions, but also available for a whole morning or afternoon – to allow as many participants to interact with the poster in a common area close to the break-out rooms. We advise all authors to use a QR code for their email address, so that other participants can contact them easily during and after the conference.

Further details on the poster presentation will follow in due course.

Poster Submission Structure:

First author/ Presenter: Name, email address, highest educational degree obtained, affiliated

institution, institution country and city, complete mailing address, and telephone number.

Co-authors: Names, email address, highest educational degree obtained, country, affiliated institution, and institution country and city.

Preferred Mode of Presentation: Please select "Poster presentation."
Thematic Streams: Please choose one or several thematic streams. If you are unsure which stream to choose, contact the organising committee.

Title of presentation: Please choose a brief title that clearly indicates the content of the contribution. Please avoid abbreviations in the title.

Abstract: Please ensure that your abstract contains maximum 300 words. Please avoid diagrams, illustrations, tables, references or graphics in the abstract. Provide maximum relevant information in the abstract. If the subject matter is empirical, the following structure is obligatory: The objective, methods, results, and conclusions.

Keywords: Please indicate up to 3keywords for your abstract
